Dr. N. D. Desai Faculty of Medical Science and Research,
Dharmsinh Desai University, Nadiad

Proposal Presentation Format (Presentation time around 8 minutes and discussion around 7 minutes)

Study Title

- Dissertation/ Research proposal
- Names of Principle Investigator (PI) / Co-PI
- Name of Department

Introduction of Study

- Provide the rationale behind the work, importance (significance) of the study
- Describe the situation and specify clearly the gaps in the existing knowledge/inconclusive evidence
- Describe the experimental design and how it will accomplish the stated objectives
- Describes what is expected to be achieved or gained from the proposed research

Aims & Objectives

- Aims & Objectives should be specific, to the point and achievable
- Objectives should follow the "SMART" criteria (specific, measurable, achievable, relevant and timebound)
- Major focus of research can be stated as primary objective and rest can be the secondary objectives.
- Restrict to a maximum of 3-4 objectives.
- It should give a clear notion of what is to be described, determined, identified, compared or confirmed

Study Methodology

- Put OBJECTIVE-WISE METHODOLOGY
- Study Design
- Study Setting: Location where the study is planned to be conducted.
- Study time line
- Study Population: Who are the participants of the study (Eg: Specific age groups)
- Sample Size: Number of participants estimated scientifically based on findings from literature review.
- Sampling technique: Explain how participants are selected

- Study variables: Mention the dependent and independent variables.
- Method of Data collection: How the data collection is planned to be conducted can be mentioned (Eg: Survey/Interview)
- Details of written informed consent (if applicable)
- Study tools : Mention the instruments used to collect data.
- Data Analysis Plan: How the collected data is

Inclusion Criteria

- Attributes of subjects that are essential for their selection to participate

Exclusion Criteria

- Responses of subjects that require their removal as subjects

Study Flow chart (optional)

Ethical Consideration

- Mention if any

Case record form/ Data collection tool

- Mention about the tool which is used to collect data with list of data to be collected

Budget

- Specify if any

References
